played in the railroad stocks, however. The unfavorable labor news caused coal stocks to sell off a little, but with this exception the tone was firm. Southern Pacific showed considerable strength on the belief that the younger members of the board would favor a more progressive policy than Hunting-ton's. Southern Railway preferred was no-live and firmer and the possibility of a five and firmer and the possibility of a fividend declaration on a 4 per cent hasis was freely canvassed. B. R. T. was in-blined to be heavy on various adverse ru-mors, none of them very well authenticated. Sugar was somewhat heavy in spite of a good deal of talk of a return to the 12 per cent dividend basis in December. The street is not inclined to discount dividends fulle so far ahead. People's Gas held fairtuite so far ahead. People's Gas need fairly well in spite of some pressure from Chicago. American Cotton Oil showed strength on rather premature dividend rumors.

The close was dull but firm, with a considerably smaller volume of husiness doing than for some days past. The borrowing demand showed a very limited account

demand showed a very limited account open.

The Chinese position is substantially unchanged, but the tone of the European press seems to be getting considerably less warlike. There is no real reason why the Chinese difficulty cannot be settled amicably, and it looks as if land grabbing might be postponed indefinitely if the United States and one or two of the other Powers set their faces against it. With little trading to occupy them the brokers discussed politics to-day, especially the latest story that Mr. Cleveland would come out for Mr. Bryan. Such an accession to the Democratic hosts would probably be a bear factor. The cutting criticism of Mr. Oliney of stock market juggling serves, however, to minimize in some measure the calamity cries that one hears in Wall street just before each presidential election.

James Speyer has joined the Southern Pacific Board. No decision has yet been reached as to the new president, but a committee has oven appointed to select an executive.

mittee has been appointed to select an exbentiva.

London's trading in Americans fell off
considerably to-day, arbitrage houses doing
not more than 7,000 shares.
Stories of cuiting of rates by the Ogden
Company continue to arrive from Chicago,
but the stock is noticeably firm. Exchange
on London is weak and the general impression is that gold shipments are unlikely for
the rest of the year, but a little more demand for money in the open market is likeby by the end of this mouth or the middle of
the next. The supply of money in the marhat continues amplie and there is quite a
little short interest left, though not so
much as there was two or three weeks ago.

New York, Sopt. 6.—The market for American stocks in London seems to be Retting narrow again. The trading to-day was very limited. The tone of the market for ty well up to the best. The general market was steady, and consols were firm at 1854. The Bank of England did not change its rate, which remains at 4 per cent. The bank return was an exceptionally good one and showed the bank to be in a strong position in the event of an autumn demand for momey. No changes were recorded in money or exchange. The Chiness outlook was considered rather more favorable.

In the local market there was a marked theck to the activity of the previous two days. There was considerable strength displayed in the railroad stocks, however. The unfavorable labor news caused coal stocks to sell off a little, but with this exception the tone was firm. Southern Pracific showed considerable strength on the belief that the considerable strength of the province of the considerable strength of the

Another Very Good Day's Business Another Very Good Day's Business Reported Among the Local Banks.

St. Lonis, Thursday, Sept. 5, 1900. While probably not so heavy in the aggregate, the business transacted among the banks to-day showed up very encouractisty when compared with the two preceding days of the week. The excellent demand that has prevailed all of this week so far continues, money was in liberal supply and interest rates were steady at 5 to 1 per cent, on which hacks call and time paper was discounted. Routine business was active and heavy enough to keep bank clerks busily employed throughout business hours. The mainly good country business was also reported. STORM STOPPED THE TRIAL. Court Officers and Jury Couldn't

Keep Out the Rain.

The trial of a case in Justice Haughton's court was interrupted yesterday afternoon by the shower which occurred at 4 o'clock. The Court was engaged hearing testimony in the suit of Delle Hickey against Joseph Welsch and Elizabeth Welch. Mrs. Hickey rented a house at No. 375 Lee avenue from Elizabeth Welch. Trouble occurred between the perties July II, last about the condition of the premises, and Mrs. Hickey alleges that the defendants assaulted her. She sued for \$200 damages.

The testimony for the plaintiff was nearly all submitted when the rain began. The building in which the court is located is a one-story structure. There is a skylight over the counsel table. The windows of the skylight were open. The rain beat in and fell upon the lawyers and litigants. The case was abandoned, and the lawyers and their clients sought other parts of the courtroom out of the reach of the storm.

James Griffin, clerk of the court, tried to close the windows, assisted by Judge Haughton and some of the jurymen. The task had to be abandoned, however, as the roopes attached to the windows would not ropes attached to the windows would not work. After the rain had ceased, Clerk Griffin wised off the counsel table with a towel, and the trial was resumed.

HOTTEST DAY OF THE MONTH. Mercury Went to 94 in the Afternoon-Relief Predicted.

Yesterday was the hottest day so far this month. At 2 p. m., the mercury in the official thermometer in the dome of the Federal building had climbed to the 31-degree mark. About 4:15 a south wind sprang up, bringing with it a hard shower of rain. For a time, this served to cool the atmosphere. The mercury went down to 81, but went up five degrees when the rain massed over.

but went up five degrees when the rain pussed over.

At noon the principals of the public schools began to feel uncommonly warm, and though they were very busy, found time to frequently examine their therometers. When the mercury touched 20 they dismissed their schools.

Doctor Hyatt, local weather man, predicts cooler weather for to-day. He says that it will be fair and cooler in St. Louis and throughout Missouri.
